EXPERIENCE

RND Interactive, Anderson Island, WA — *Production Specialist*

October 2019 - PRESENT

• Developed and maintained PHP scripts that facilitate the automation of auto dealer websites.

• Kept abreast of emerging technologies, software trends and project applications.

• Created "special offer coupons" for clients with HTML and CSS.

• Performed performance and visual website audits regularly.

• Provided support on clients websites. This includes maintenance, brand compliance, or data validation.

Virginia Information Technologies Agency, Chester, VA — *IT Project Coordinator*

June 2018 - April 2019

• Developed an internal application using Quickbase that streamlines efficiency and automation in the following areas: Asset Management, Resource Management, Resource allocation, Monthly Service Deliverables.

• Created Javascript functions, in Quickbase application, to set values of fields. Including pricing, status, and other values.

• Communicated weekly with leadership and external vendors to deliver key Deliverables and Project Milestones.
